

PRODUCT NO. 4343-2

DOTLUX EMERGENCY CURRENT ACCU KIT EMERGENCY LIGHT BATTERY 5W 10-90V Self-test constant power (3h) for constant current operated LED lights LiFePO4 7.3V

to the product page

- In the event of a power failure, the kit provides emergency lighting for constant current-operated LED lights, which are then powered by the internal battery
- If the light is switched off and the mains power fails, emergency power operation also starts
- The emergency power supply AKKU-KIT is primarily designed for retrofitting continuous-row lighting systems from the DOTLUX range, e.g. linear luminaires
- Can be used universally for all LED luminaires with external ballasts with an operating voltage of 10-90 V DC.
- The emergency power supply AKKU-KIT includes an operating status LED with installation socket and a test switch for external installation
- The AKKU-KIT does not replace the power supply unit of the LED light. The AKKU-KIT must be ordered in addition to the power supply unit.
- Automatic self-test function
- Temperature resistant from -20 to 55°C

SUCCESSION ARTICLE	-	INPUT VOLTAGE	220 - 240 V AC
PREDECESSOR ARTICLE	4343-1	BATTERY RUNTIME	3h
WEIGHT IN KG	0.276	PROTECTION CLASS	II
POWER CONSUMPTION IN WATTS	5	INPUT VOLTAGE SPAN	10-90
		WARRANTY IN YEARS	3
		INPUT VOLTAGE RANGE LUMINAIRE	10-90
		ETIM GRUPPEN-ID	EC000471
		BEG FUNDING	Only relevant in Germany
		LAMP TYPE	Other
